

Adult Psychoanalytic Training Program

NCP's Adult Psychoanalytic Training Program (APT) is dedicated to exploring the full spectrum of psychoanalytic theory and practice. Our curriculum ranges from Freud to the most current developments in contemporary psychoanalytic theory and practice. We are proud of the unusual depth and range of our seminars and programming, of their interdisciplinarity and close attention to the development of clinical acumen. Our faculty are neuroscientists, psychiatrists, psychologists, and specialists in language, history, the arts, the law, and digital worlds, as well as psychoanalysts. They are also devoted to clinical practice. Come enjoy our case conferences, study groups, seminars, movie nights, and celebrations!

A Multidimensional Training for Minds in Constant Evolution

NCP designed a progressive and forward-thinking Adult Psychoanalytic Training Program to help you deepen your clinical skills and enhance your practice. From Freud to relational approaches, our program has earned a national reputation for offering a full range of psychoanalytic ideas. NCP is an inclusive and pluralistic institute, committed to transforming lives and communities through the power of psychoanalytic dialogue.
