Bold = Supervising Only
* = Child Analytic Supervisor
NCP designed a progressive and forward-thinking Adult Psychoanalytic Training Program to help you deepen your clinical skills, and enhance your practice. From a diverse array of psychoanalytic perspectives, you will engage in the process of becoming a psychoanalyst. Personal psychoanalysis is the foundation of training, which encourages you to share the process by meeting with other NCP trainees. This unique style will allow you to learn from our distinguished and experienced faculty.

The Tripartite Training Model
The core of psychoanalytic education is deep and intensive self-exploration. It can be one of the most fulfilling experiences.
